github.com/Techsrivastava ⬤

Highly skilled and motivated frontend developer with 5 years of experience in creating and maintaining responsive, user-friendly websites and web applications. Strong understanding of modern frontend technologies and frameworks, including HTML, CSS, JavaScript, and React. Proven ability to work collaboratively with cross-functional teams to deliver high-quality, visually appealing products on time and on budget.

WORK EXPERIENCE

Software Developer
Freelancer

03/2019 - Present   *india*

Tasks
- Meeting with clients to understand their needs and requirements for the project, and providing estimates for time and cost.
- Designing and developing websites and web applications using a variety of technologies such as HTML, CSS, JavaScript, and specific frameworks such as React etc.
- Writing clean, maintainable, and efficient code, while following industry best practices and standards.
- Collaborating with designers and other developers to ensure that the final product is visually appealing and user-friendly.
- Testing and debugging the website or application to ensure that it works correctly on different platforms and devices.
- Implementing responsive design techniques to make sure the website or application looks great on different screen sizes.
- Keeping up-to-date with the latest web development trends and technologies, and incorporating them into your work as appropriate.
- Communicating with clients throughout the development process to keep them informed of progress and to gather feedback.
